IPCC website language pages

In line with the IPCC Communications Strategy, which encourages the IPCC to provide communication products in the official UN languages to the extent possible, we are pleased to announce that the IPCC website now has [new language pages](#) which can be accessed from the Languages drop-down menu on the top right-hand corner of the [IPCC home page](#).

These pages are shortened versions of the English IPCC website designed to improve navigation of the IPCC website using the other official UN languages. Therefore, these are limited pages which will not be updated as regularly as the English version of the website.

You can also access these pages using the following links:

- Main page: http://www.ipcc.ch/home_languages_main.shtml

- Spanish: http://www.ipcc.ch/home_languages_main_spanish.shtml

The new Arabic page is undergoing layout and will be released in the coming weeks.
